

# KATALIN UZONI

Graphic Design Intern

## ABOUT ME

Figuring out what I would like to do was not easy for me. After high school I have gone to business and finance direction but nice and slowly it turned out it is not really my way and decided to change profession.

I have started to study graphic design in June 2019 at ESDIP Berlin. However I have just started to dig in to this beautiful profession I already feel very comfortable and think I found my passion. On my way forward I hope I can learn more and more every day.
